Contents Volume 60, 2003

VOL. 60, Nos. 1–2

Flow and transport in unsaturated fractured rock: effects of multiscale heterogeneity of hydrogeologic properties
Q. Zhou, H.-H. Liu, G.S. Bodvarsson and C.M. Oldenburg 1
A large-scale experiment on mass transfer of trichloroethylene from the unsaturated zone of a sandy aquifer to its interfaces
S. Jellali, H. Benremita, P. Muntzer, O. Razakarisoa and G. Schäfer 31
The effects of surfactant formulation on nonequilibrium NAPL solubilization
L. Zhong, A.S. Mayer and G.A. Pope. 55
A micromodel analysis of factors influencing NAPL removal by surfactant foam flooding
S.-W. Jeong and M. Yavuz Corapcioglu. 77
Quantification of mass fluxes and natural attenuation rates at an industrial site with a limited monitoring network: a case study
A. Bockelmann, D. Zamfirescu, T. Ptak, P. Grathwohl and G. Teutsch. 97

Short communication
Application of the method of temporal moments to interpret solute transport with sorption and degradation
L. Pang, M. Goltz and M. Close 123

VOL. 60, Nos. 3–4

Harmonic analysis of flow in open boreholes due to barometric pressure cycles
D.A. Neeper 135
Kinematic analysis of solute mass flows in rock fractures with spatially random parameters
A. Wörman, S. Xu and B. Dverstorp 163
Virus retention and transport through Al-oxide coated sand columns: effects of ionic strength and composition
J. Zhuang and Y. Jin 193
Stable hydrogen, carbon and chlorine isotope measurements of selected chlorinated organic solvents
O. Shouakar-Stash, S.K. Frape and R.J. Drimmie. 211
Laboratory evidence of MTBE biodegradation in Borden aquifer material
M. Schirmer, B.J. Butler, C.D. Church, J.F. Barker and N. Nadarajah. 229
Preliminary 3-D site-scale studies of radioactive colloid transport in the unsaturated zone at Yucca Mountain, Nevada
G.J. Moridis, Q. Hu, Y.-S. Wu and G.S. Bodvarsson. 251

Modelling biodegradation of hydrocarbons in aquifers: when is the use of the instantaneous reaction approximation justified?
A.D. Koussis, S. Pesmajoglou and D. Syriopoulou 287
Dissolved organic matter effects on the performance of a barrier to polycyclic aromatic hydrocarbon transport by groundwater
J.-W. Moon, M.N. Goltz, K.-H. Ahn and J.-W. Park 307
